

**MEDICATION GUIDE**  
**LEVETIRACETAM TABLETS**  
**1000 mg**

Read this Medication Guide before you start taking LEVETIRACETAM TABLETS and each time you get a refill. There may be new information. This information does not take the place of talking to your healthcare provider about your medical condition or treatment.

**What is the most important information I should know about LEVETIRACETAM TABLETS?**

**Like other antiepileptic drugs, LEVETIRACETAM TABLETS may cause suicidal thoughts or actions in a very small number of people, about 1 in 500 people taking it.**

**Call a healthcare provider right away if you have any of these symptoms, especially if they are new, worse, or worry you:**

- thoughts about suicide or dying
- attempts to commit suicide
- new or worse depression
- new or worse anxiety
- feeling agitated or restless
- panic attacks
- trouble sleeping (insomnia)
- new or worse irritability
- acting aggressive, being angry, or violent
- acting on dangerous impulses
- an extreme increase in activity and talking (mania)
- other unusual changes in behavior or mood

**Do not stop LEVETIRACETAM TABLETS without first talking to a healthcare provider.**

- Stopping LEVETIRACETAM TABLETS suddenly can cause serious problems. Stopping a seizure medicine suddenly can cause seizures that will not stop (status epilepticus).
- Suicidal thoughts or actions can be caused by things other than medicines. If you have suicidal thoughts or actions, your healthcare provider may check for other causes.

**How can I watch for early symptoms of suicidal thoughts and actions?**

- Pay attention to any changes, especially sudden changes, in mood, behaviors, thoughts, or feelings.
- Keep all follow-up visits with your healthcare provider as scheduled.
- Call your healthcare provider between visits as needed, especially if you are worried about symptoms.

**What is LEVETIRACETAM TABLET?**

LEVETIRACETAM TABLET is a prescription medicine taken by mouth that is used with other medicines to treat:

- partial onset seizures in people 4 years of age and older with epilepsy

It is not known if LEVETIRACETAM TABLET is safe or effective in children under 4 years of age.

Before taking your medicine, make sure you have received the correct medicine. Compare the name above with the name on your bottle and the appearance of your medicine with the

description of LEVETIRACETAM TABLETS provided below. Contact your pharmacist immediately if you believe a dispensing error may have occurred.

LEVETIRACETAM TABLETS, 1000 mg are white to off-white, oblong-shaped, biconvex, film-coated tablets debossed with "L" and "U" on either side of the breakline on one side and "X04" on the other side.

**What should I tell my healthcare provider before starting LEVETIRACETAM TABLETS?**

Before taking LEVETIRACETAM TABLETS, tell your healthcare provider about all of your medical conditions, including if you:

- have or have had depression, mood problems or suicidal thoughts or behavior
- have kidney problems
- are pregnant or planning to become pregnant. It is not known if LEVETIRACETAM TABLETS will harm your unborn baby. You and your healthcare provider will have to decide if you should take LEVETIRACETAM TABLETS while you are pregnant. If you become pregnant while taking LEVETIRACETAM TABLETS, talk to your healthcare provider about registering with the North American Antiepileptic Drug Pregnancy Registry. You can enroll in this registry by calling 1-888-233-2334.
- are breast feeding. LEVETIRACETAM TABLETS can pass into your milk and may harm your baby. You and your healthcare provider should discuss whether you should take LEVETIRACETAM TABLETS or breast-feed; you should not do both.

Tell your healthcare provider about all the medicines you take, including prescription and nonprescription medicines, vitamins, and herbal supplements. Do not start a new medicine without first talking with your healthcare provider.

Know the medicines you take. Keep a list of them to show your healthcare provider and pharmacist each time you get a new medicine.

**How should I take LEVETIRACETAM TABLETS?**

Take LEVETIRACETAM TABLETS exactly as prescribed.

- Your healthcare provider will tell you how much LEVETIRACETAM TABLETS to take and when to take it. LEVETIRACETAM TABLETS is usually taken twice a day. Take LEVETIRACETAM TABLETS at the same times each day.
- Your healthcare provider may change your dose. Do not change your dose without talking to your healthcare provider.
- Take LEVETIRACETAM TABLETS with or without food.
- Swallow the tablets whole. Do not chew or crush tablets.
- If you miss a dose of LEVETIRACETAM TABLETS, take it as soon as you remember. If it is almost time for your next dose, just skip the missed dose. Take the next dose at your regular time. **Do not take two doses at the same time.**
- If you take too much LEVETIRACETAM TABLETS, call your local Poison Control Center or go to the nearest emergency room right away.
