SAFETY DATA SHEET

Section 1: Identification

Section 1, Identification

Material Kurvelo™

Levonorgestrel and Ethinyl Estradiol Tablets USP

0.15 mg/0.03 mg

Manufacturer Lupin Limited

Pithampur (M.P.) – 454 775

INDIA.

Distributor Lupin Pharmaceuticals, Inc.

111 South Calvert Street, Harborplace Tower, 21st Floor, Baltimore, Maryland 21202

United States

Tel. 001-410-576-2000 Fax. 001-410-576-2221

Section 2: Hazard(s) Identification

Section 2, Hazard(s) identification

Fire and Explosion Expected to be non-combustible.

Health Combination oral contraceptives should not be used in women with

any of the following conditions:

Thrombophlebitis or thromboembolic disorders.

A past history of deep-vein thrombophlebitis or thromboembolic

disorders.

Cerebral-vascular or coronary artery disease.

Thrombogenic valvulopathies.
Thrombogenic rhythm disorders.
Diabetes with vascular involvement.

Uncontrolled hypertension.

Known or suspected carcinoma of the breast.

Carcinoma of the endometrium or other known or suspected

estrogen-dependent neoplasia.

Undiagnosed abnormal genital bleeding.

Cholestatic jaundice of pregnancy or jaundice with prior pill use. Hepatic adenomas or carcinomas, or active liver disease, as long as

liver function has not returned to normal.

Known or suspected pregnancy.

Hypersensitivity to any of the components of Kurvelo (levonorgestrel

and ethinyl estradiol tablets).

Environment No information is available about the potential of this product to

produce adverse environmental effects.

Section 3: Composition/Information on Ingredients

Section 3, Composition/information on ingredients

Ingredients CAS

Levonorgestrel USP 797-63-7 Ethinyl Estradiol USP 57-63-6

Section 4: First-Aid Measures

Section 4, First-aid measures

Ingestion If conscious, give water to drink and induce vomiting. Do not attempt to

give any solid or liquid by mouth if the exposed subject is unconscious or semi-conscious. Wash out the mouth with water. Obtain medical

attention.

Inhalation Move individual to fresh air. Obtain medical attention if breathing

difficulty occurs. If not breathing, provide artificial respiration

assistance.

Skin Contact Remove contaminated clothing and flush exposed area with large

amounts of water. Wash all exposed areas of skin with plenty of soap

and water. Obtain medical attention if skin reaction occurs.

Eye Contact Flush eyes with plenty of water. Get medical attention.

NOTES TO HEALTH PROFESSIONALS

Medical Treatment Treat according to locally accepted protocols. For additional guidance,

refer to the current prescribing information or to the local poison control information center. Protect the patient's airway and support ventilation and perfusion. Meticulously monitor and maintain, within acceptable limits, the patient's vital signs, blood gases, serum

electrolytes, etc.

OVERDOSAGE Serious ill effects have not been reported following acute ingestion of

large doses of oral contraceptives by young children. Overdosage may cause nausea, and withdrawal bleeding may occur in females.

Section 5: Fire-Fighting Measures

Section 5, Fire-fighting measures

Fire and Explosion Hazards Assume that this product is capable of sustaining combustion.

Extinguishing Media Water spray, carbon dioxide, dry chemical powder or appropriate

foam.

Special Firefighting Procedures For single units (packages): No special requirements needed.

For larger amounts (multiple packages/pallets) of product: Since toxic, corrosive or flammable vapors might be evolved from fires involving this product and associated packaging, self-contained breathing

SDS : 063/02 Page 2 of 5

apparatus and full protective equipment are recommended for

firefighters.

Hazardous Combustion Products Hazardous combustion or decomposition products are expected

when the product is exposed to fire.

Section 6: Accidental Release Measures

Section 6, Accidental release measures

Personal Precautions Wear protective clothing and equipment consistent with the degree of

hazard.

Environmental Precautions For large spills, take precautions to prevent entry into waterways

sewers, or surface drainage systems.

Clean-up Methods Collect and place it in a suitable, properly labeled container for

recovery or disposal.

Section 7: Handling and Storage

Section 7, Handling and storage

Handling No special control measures required for the normal handling of this

product.

Normal room ventilation is expected to be adequate for routine

handling of this product.

Storage Store at 25° C (77° F); excursions permitted to 15° to 30° C

(59° to 86° F) [see USP Controlled Room Temperature].

Section 8: Exposure Controls/Personal Protection

Section 8, Exposure controls/personal protection

Wear appropriate clothing to avoid skin contact. Wash hands and arms thoroughly after handling.

Section 9: Physical and Chemical Properties

Section 9, Physical and chemical properties

Physical Form HOW SUPPLIED

Kurvelo Tablets (levonorgestrel and ethinyl estradiol tablets USP) (3 x 28) are available in packages of 3 wallets, each containing

28 tablets as follows:

Each blister strip contains 21 light orange tablets, each containing of 0.15 mg levonorgestrel and 0.03 mg ethinyl estradiol, debossed with

"LU" on one side and "U31" on the other side.

7 inert pink, round, biconvex tablets, debossed with "LU" on one side

and "U32" on the other side.

SDS : 063/02 Page 3 of 5

They are supplied as follows:

Kurvelo tablets are available in a wallet (NDC 68180-844-11) containing 28 tablets, such 3 wallets are packed in a carton (NDC 68180-844-13).

Section 10: Stability and Reactivity

Section 10, Stability and reactivity

Stable under recommended storage conditions.

Section 11: Toxicological Information

Section 11, Toxicological information

Carcinoma Of The Reproductive Organs

A meta-analysis from 54 epidemiological studies reported that there is a slightly increased relative risk (RR=1.24) of having breast cancer diagnosed in women who are currently using combination oral contraceptives compared to never-users. The increased risk gradually disappears during the course of the 10 years after cessation of combination oral contraceptive use. These studies do not provide evidence for causation. The observed pattern of increased risk of breast cancer diagnosis may be due to earlier detection of breast cancer in combination oral contraceptive users, the biological effects of combination oral contraceptives, or a combination of both. Because breast cancer is rare in women under 40 years of age, the excess number of breast cancer diagnoses in current and recent combination oral contraceptive users is small in relation to the lifetime risk of breast cancer. Breast cancers diagnosed in ever-users tend to be less advanced clinically than the cancers diagnosed in never-users.

Some studies suggest that oral contraceptive use has been associated with an increase in the risk of cervical intraepithelial neoplasia or invasive cervical cancer in some populations of women. However, there continues to be controversy about the extent to which such findings may be due to differences in sexual behavior and other factors.

In spite of many studies of the relationship between oral contraceptive use and breast and cervical cancers, a cause-and-effect relationship has not been established.

Section 12: Ecological Information

Section 12: Ecological Information

No relevant studies identified.

Section 13: Disposal Considerations

Section 13: Disposal Considerations

Incinerate in an approved facility. Follow all federal state and local environmental regulations.
