Section 1: Identification

Material

*Pirmella™ 7/7/7 (Norethindrone and Ethinyl Estradiol Tablets USP) 0.5 mg/0.035 mg, 0.75 mg/0.035 mg and 1 mg/0.035 mg*

Manufacturer

*Lupin Limited  
Pithampur (M.P.) – 454 775  
INDIA.*

Distributor

*Lupin Pharmaceuticals, Inc.  
111 South Calvert Street,  
Harborplace Tower, 21st Floor,  
Baltimore, Maryland 21202  
United States  
Tel. 001-410-576-2000  
Fax. 001-410-576-2221*

Section 2: Hazard(s) Identification

Section 2, Hazard(s) identification

Fire and Explosion

*Expected to be non-combustible.*

Health

*Oral contraceptives should not be used in women who currently have the following conditions:*

- Thrombophlebitis or thromboembolic disorders
- A past history of deep vein thrombophlebitis or thromboembolic disorders
- Known thrombophilic conditions
- Cerebral vascular or coronary artery disease (current or history)
- Valvular heart disease with complications
- Persistent blood pressure values of ≥160 mm Hg systolic or ≥ 100 mg Hg diastolic
- Diabetes with vascular involvement
- Headaches with focal neurological symptoms
- Major surgery with prolonged immobilization
- Known or suspected carcinoma of the breast
- Carcinoma of the endometrium or other known or suspected estrogen-dependent neoplasia
- Undiagnosed abnormal genital bleeding
- Cholestatic jaundice of pregnancy or jaundice with prior pill use
- Acute or chronic hepatocellular disease with abnormal liver function
- Hepatic adenomas or carcinomas
- Known or suspected pregnancy
- Hypersensitivity to any component of this product
Environment

No information is available about the potential of this product to produce adverse environmental effects.

### Section 4: First-Aid Measures

**Section 4, First-aid measures**

**Ingestion**

If conscious, give water to drink and induce vomiting. Do not attempt to give any solid or liquid by mouth if the exposed subject is unconscious or semi-conscious. Wash out the mouth with water. Obtain medical attention.

**Inhalation**

Move individual to fresh air. Obtain medical attention if breathing difficulty occurs. If not breathing, provide artificial respiration assistance.

**Skin Contact**

Remove contaminated clothing and flush exposed area with large amounts of water. Wash all exposed areas of skin with plenty of soap and water. Obtain medical attention if skin reaction occurs.

**Eye Contact**

Flush eyes with plenty of water. Get medical attention.

NOTES TO HEALTH PROFESSIONALS

**Medical Treatment**

Treat according to locally accepted protocols. For additional guidance, refer to the current prescribing information or to the local poison control information center. Protect the patient’s airway and support ventilation and perfusion. Meticulously monitor and maintain, within acceptable limits, the patient’s vital signs, blood gases, serum electrolytes, etc.

**OVERDOSAGE**

Serious ill effects have not been reported following acute ingestion of large doses of oral contraceptives by young children. Overdosage may cause nausea, and withdrawal bleeding may occur in females.

### Section 5: Fire-Fighting Measures

**Section 5, Fire-fighting measures**

**Fire and Explosion Hazards**

Assume that this product is capable of sustaining combustion.
### Extinguishing Media
Water spray, carbon dioxide, dry chemical powder or appropriate foam.

### Special Firefighting Procedures
For single units (packages): No special requirements needed. For larger amounts (multiple packages/pallets) of product: Since toxic, corrosive or flammable vapors might be evolved from fires involving this product and associated packaging, self-contained breathing apparatus and full protective equipment are recommended for firefighters.

### Hazardous Combustion Products
Hazardous combustion or decomposition products are expected when the product is exposed to fire.

---

### Section 6: Accidental Release Measures

Section 6, Accidental release measures

**Personal Precautions**
Wear protective clothing and equipment consistent with the degree of hazard.

**Environmental Precautions**
For large spills, take precautions to prevent entry into waterways, sewers, or surface drainage systems.

**Clean-up Methods**
Collect and place it in a suitable, properly labeled container for recovery or disposal.

---

### Section 7: Handling and Storage

Section 7, Handling and storage

**Handling**
No special control measures required for the normal handling of this product. Normal room ventilation is expected to be adequate for routine handling of this product.

**Storage**
Store at 25°C (77°F); excursions permitted to 15 to 30°C (59 to 86°F). [see USP Controlled Room Temperature].

---

### Section 8: Exposure Controls/ Personal Protection

Section 8, Exposure controls/personal protection

Wear appropriate clothing to avoid skin contact. Wash hands and arms thoroughly after handling.
Section 9: Physical and Chemical Properties

Section 9, Physical and chemical properties

Physical Form

Pirmella 7/7/7 Tablets are available in a wallet (NDC 68180-892-11) containing 28 tablets. Such three wallets are packaged in a carton (NDC 68180-892-13).

The wallet contains 28 tablets, as follows:

- Each of the 7 white coloured, round, flat-face beveled edged tablets debossed with “LU” on one side and “L23” on the other side containing 0.5 mg norethindrone and 0.035 mg ethinyl estradiol.
- Each of the 7 light peach coloured, round, flat-face beveled edged tablets debossed with “LU” on one side and “L24” on the other side containing 0.75 mg norethindrone and 0.035 mg ethinyl estradiol.
- Each of the 7 peach coloured, round, flat-face beveled edged tablets debossed with “LU” on one side and “L25” on the other side containing 1 mg norethindrone and 0.035 mg ethinyl estradiol.
- Each of the 7 green coloured, round, flat-face beveled edged tablets debossed with “LU” on one side and “L27” on other side containing inert ingredients.

Section 10: Stability and Reactivity

Section 10, Stability and reactivity

Stable under recommended storage conditions.

Section 11: Toxicological Information

Section 11, Toxicological information

Carcinoma of the Reproductive Organs and Breasts

Numerous epidemiological studies have been performed on the incidence of breast, endometrial, ovarian and cervical cancer in women using oral contraceptives. The risk of having breast cancer diagnosed may be slightly increased among current and recent users of COCs. However, this excess risk appears to decrease over time after COC discontinuation and by 10 years after cessation the increased risk disappears. Some studies report an increased risk with duration of use while other studies do not and no consistent relationships have been found with dose or type of steroid. Some studies have found a small increase in risk for women who first use COCs before age 20. Most studies show a similar pattern of risk with COC use regardless of a woman’s reproductive history or her family breast cancer history.

Breast cancers diagnosed in current or previous OC users tend to be less clinically advanced than in nonusers.

Women who currently have or have had breast cancer should not use oral contraceptives because breast cancer is usually a hormonally-sensitive tumor.
Some studies suggest that oral contraceptive use has been associated with an increase in the risk of cervical intraepithelial neoplasia in some populations of women.45-48 However, there continues to be controversy about the extent to which such findings may be due to differences in sexual behavior and other factors.

In spite of many studies of the relationship between oral contraceptive use and breast and cervical cancers, a cause-and-effect relationship has not been established.

Section 12: Ecological Information

No relevant studies identified.

Section 13: Disposal Considerations

Incinerate in an approved facility. Follow all federal state and local environmental regulations.

Section 14: Transport Information
