

Mr. Jon Stelzmler

*President – Specialty at Lupin
Pharmaceuticals*

Mr. Jon Stelzmler is the President of Lupin Pharmaceuticals' Specialty business in the U.S. His responsibilities include driving the growth of Lupin's Specialty brand business and improving the top line and bottom line of the organization.

Jon has more than 30 years of experience in the speciality pharmaceuticals business. He has a proven track record of helping build high-performing teams and orchestrating the launch of 18 major brands across 14 different therapeutic areas including Women's Health, Oncology and Anti-Infectives.

Prior to joining Lupin, Jon served as the Senior Vice President and General Manager — Women's Healthcare at Bayer for six years where he helped build and lead a billion-dollar women's health business in the U.S. He also spent 12 years at Pfizer Inc. in roles of increasing commercial responsibilities in Specialty areas including Institutional sales and market access.

Jon spent his early career at the Upjohn Company and Pharmacia Corporation in various sales and sales leadership positions. He holds a Bachelor of Science degree in Bacteriology from North Dakota State University.
